Memo to File:

Re: Jim Butts
Daisy Mine

On September 22, 1977, Ron Daniels and Brian Buck visited this active, underground uranium mine in the Red Canyon area of San Juan County. The miners on the site said that the claims were known as the Daisy claims and belonged to Mr. James Butts of Monticello. The Miners were working for Mr. Francis May a contractor from Blanding who started the mine in April 1977. The operation was apparently almost over and appeared to be under 2 acres in size.

Mr. Butts will be asked to file a Declaration of Exemption for this operation.

BRIAN W. BUCK
ENGINEERING GEOLOGIST
